

DESCRIPTION

Highly concentrated oxygen solution for whiten and spotting white and color fast fabrics. An outstanding product for use in regular wash or as a pre-soak. Oxy-Brite Color Safe Fabric Brightener brightens colors and whitens whites much more than using detergent alone. It comes in a convenient liquid form for easy pouring. It is also specially formulated to be safe on colors and fabrics. Just add it to your wash for a brighter clean. Oxy-Brite attacks and breaks down even the most stubborn stains.

FEATURES AND BENEFITS

- * BRIGHTENS colors and whitens whites
- * EFFECTIVE formula cuts dirt and stains
- * EASY TO USE, convenient liquid form
- * CAN BE USED in standard or High Efficiency (HE) machines

USAGE

Recommended for commercial, institutional, industrial as well as household use.

DIRECTIONS

If in doubt about certain fabrics, we recommend testing on inconspicuous area first.

Add to load of laundry with detergent.

USE: Three (3) ounces per fifty (50) Lbs. of laundry.

Pre-spotting

Apply product to the wet fabric and let stand for a few minutes. Scrub lightly for stubborn stains. Wash as usual.
