

DESCRIPTION

Citrus Tar Remover is an innovative formulation in an easy-to-use product for cleaning tar, pitch, asphalt, oil and grease from asphalt spreaders, road machinery, tar and asphalt heating pots, mops, brooms, shovels, floors, bricks, etc. You can use it on vehicles to remove all the tar and road grime, bugs, tree sap and to restore the shine.

USAGE

Recommended for commercial, industrial and institutional use. Excellent for cleaning cars, trucks, buses, machinery parts, motors, chassis, heavy grease from floors, etc. Great for washing the 5th wheels of highway tractor trucks.

DIRECTIONS

CARS, TRUCKS AND BUSES

Generally not injurious to the paint and lettering but test product in an inconspicuous area before using. Dirt, oil and grease are quickly removed by applying this solution using a sprayer or by means of a soft long handled brush. Rinse with cold water. A beautiful gloss finish will result.

CLEANS MACHINERY PARTS WITHOUT THE USE OF HEAT

Safe, fast, and inexpensive. The solution may be used over and over again. Place parts in a tank and allow soaking for one and a half hour to two hours, depending upon the accumulation of grease or tar on the parts to be cleaned. Remove parts and wash with water from a hose.

MOTORS AND CHASSIS

Removes completely all tar, asphalt, grease, oil, and grime from the motor blocks and chassis of autos, trucks, busses, and tractors quickly and economically. It is ready to use or may be mixed with 3 parts water.

The solution is simply brushed or sprayed on, covering the area to be cleaned. This may be done with a low pressure sprayer, then allow to remain on surface for 10 to 15 minutes and flush away with water. A force stream will aid in doing the work more quickly. Cover the distributor with a piece of rubber while doing this work.

HEAVY ACCUMULATED DOWN TRODDEN GREASE FROM FLOORS

Painted floors are not attacked by this compound. It may be mixed with water. Apply and allow to remain on the floor for about 10 minutes and then rinse off with a stream of water.

PRODUCT SPECIFICATIONS

APPEARANCE	Clear liquid
VISCOSITY @ 77°F cps	0.779
ODOR	Orange fragrance
FLASH POINT	104 °F
SOLVENTS	Various
DISPERSIBILITY	Slightly emulsifiable
SHELF LIFE	1 Year in unopened container
PACKAGING	55, 35, 15 Gallon drums 5 Gallon pails Cases of 6/1 and 4/1 Gallon jugs
